WAAS/LPV

### Interior

The aircraft features a six-passenger executive interior in a custom warm camel tone leather, arranged in a forward four-place club and two forward-facing seats aft. The seats are richly padded with diamond-stitch detail and include articulating headrests. An additional two standard seats can be installed in the aft cabin, allowing for eight total passengers. The cabin is finished with cream-colored headliner and sidewalls, paired with a neutral-tone carpet that extends the length of the cabin. Three executive tables complement the cabin along with a forward private lavatory. Metal surfaces throughout the cabin are finished in brushed nickel. The cabinetry complements the soft goods with a medium tone wood veneer in matte finish. The forward refreshment center includes a coffee carafe, ice drawer, condiment drawer, trash bin, and general storage compartments. Three 110V AC cabin outlets provide convenient power access for passengers.
