Fresh 36 Month Inspection at
Dassault Little Rock, AR

Interior

The 14 passenger executive interior features a forward four place club configuration with berthable, mechanically actuated seats, a four place dining/conference group opposite a two place settee in the mid cabin, and dual opposing three place divans in the aft cabin, offering flexible lounge or rest space. All seating is completed in elegant two-tone taupe and ivory leather, complemented by high gloss Macassar ebony veneer cabinetry and dark charcoal patterned carpet. Cabin sidewalls and headliner are completed in a soft platinum Ultraleather, with brushed metal hardware accents throughout. The interior was fully refurbished in June 2020 by West Star Aviation, Grand Junction, CO with updated soft goods and woodwork. A forward galley and galley annex are equipped with a TIA WaveJet microwave oven, Iacobucci cappuccino/espresso machine, Enflite high temperature convection oven, Starr heated liquid container, and a Collins galley control panel with integrated touchscreen. Cabin entertainment is managed through a Collins FCMS cabin management system with galley touchscreen interface, dual 24" LCD monitors on the forward and aft bulkheads, dual 10.4" plug-in LCD monitors, iPod and composite A/V input, Airshow 4000, and dual DVD players. Business connectivity includes Gogo AVANCE LX5 high speed internet, SwiftBroadband capability, and three dedicated ethernet ports. A solid pocket door and accordion style acoustic curtain separate the cabin from the galley and flight deck for privacy. Lavatories are located forward (crew) and aft, with the aft lavatory featuring a vanity. An internal aft baggage compartment provides in-flight access.
